NOW THAT COXEY'S JAILED.

Coxey, Browne and Jones were arrested and jailed for attempting to speak from the Capitol steps. Then the policeman lost their heads and falling upon the luckless colored women present clubbed them.—Press Dispatch.

So Coxey's jailed, and Jones, and Browne,

The Law's upheld, God bless us,
The country's saved—don't ask just how;

With clubs they might caress us,
'Twas well to nip it in the bud,
This poor man's insurrection;

His cry for bread might end in blood,
Division and defection,

No speaking from the White House steps;
'Twere law's gross violation,
But clubbing women is all right,
The method of the nation.

Who asks for bread give him a jail;
For work, give him a baton.
The clamorous mob of unemployed,
Must be suppressed and sat on.

We have had speaking on the grounds
Where Capitol is seated;
The polished crowds have heard, but
—ounds!

The "mob" must be defeated.
The sleek officials must have their pay.
And that's enough, God love them!
If rabble dare to call for work.

In jails we'll have to shove them.
And so they talk! Thus blind they are;
For woe and trouble baiting,
Unknown that beneath his rags

There lies a demon waiting;
A demon patient even yet,
But waiting, waiting ever
To feed on blood of human hearts.

And white, white throats to sever.
The worthless man whom you may jail
An army counts of brothers,
And every heartache he conceals

Is breeding, breeding others.
His humble prayer an answer needs,
While he but asks to labor—
A pickax in his braven hand

Is better than a sabre.

MINING PARAGRAPHS.

A Splendid Showing on the 1650 Level of Con. Va.

Superintendents Sharon, Keating and Gorkham, in company with Superintendent Lyman and Geth Haist, inspected the ore development on the 1650 level of the Consolidated California and Virginia mine yesterday. Mr. Sharon says there is about twelve feet of sand ore in the drift, fourteen feet below the 1650 level, and the face is still in ore of fine quality. He says the ore is of such high grade that it is needless to take assays of it, but estimates that an average sample taken across the face would show a much higher value than \$80 per ton—the average of last week's yield.

Messrs. Gorkham and Keating corroborated the statement of Mr. Sharon and all are confident that the drift about to be advanced 28 feet below the 1650 level, will cut the downward continuation of the ore—which is rapidly widening as depth is attained.

Mr. Sharon says the course of the ore body is northwest and southeast, with indications that further explorations will demonstrate that it has the true trend of the Comstock lode which is nearly due north and south.

Superintendent Lyman says that the south drift, fourteen feet below the 1650 level, is in 16 feet in solid ore which still shows fine in the face. He says they are now preparing to run a south drift 28 feet below the 1650 level.

The fact that Nat T. Messer, who represents James L. Flood, was a heavy buyer of Con. Cal. & Va. stock at \$6 indicates strong faith in the future of the mine.

The trading in shares of this stock was very active yesterday, the highest quotation being \$7, an advance of more than \$1.50 a share above the closing quotations of Wednesday. A still more marked advance in price is anticipated in today's board sessions, when it is predicted that the \$10 mark will be reached.

The upward movement, though not so marked, was general in all the leading stocks along the lode. The increase in the underground force in the Crown Point yesterday was made for the purpose of pushing explorations toward the Belcher line as rapidly as practicable.

In the Central tunnel the force of miners has also been increased and the reopening of the tunnel up to its terminus is being vigorously prosecuted.—Yesterday's Enterprise.

Chinese Registry Law.

San Francisco, May 4.—The period within which Chinese residents are required by law to register, in order to avoid deportation, expires at 12 o'clock tonight and all Chinese coolies hereafter, who are without proper certificates of residence, will be liable to arrest. The great mass of Chinese in San Francisco district have complied with the law.

The total number of registrations will be about 48,000, which is within 3000 of the total Chinese population of the district. A large part of this 3000 comes under the head of "ex-empts," being merchants or other than laborers, and will suffer no penalty, so that very few Chinese are left who have not complied with the law. Collector Welborn has not mapped out his plan of campaign against these few, but will await instructions from Washington. A further appropriation will be necessary to cover deportation expenses.

Had Ten Wives.

St. Paul, May 4.—A notorious career has just been closed by the death of David B. Jones near Burr Oak, LaCrosse county, Wis. He was wanted in several several parts of the state for bigamy and several other pieces of crookedness. At the age of 16 he fled from home to escape the consequences of some minor misdeeds, and two years later was sent to the reform school for forgery. When 21 he married and settled down to carpentering, but he was soon in trouble with other women and obliged to flee again to avoid arrest.

In 1875 he found his way to Trempealeau county, Wis., went to work at his trade. He was a counterfeiter, burglar, highwayman and train robber. He was married at least ten times and each time under a different name.

Go to Golden's for your spectacles, eyeglasses and optical goods, and all kinds of repairing at bottom prices.
